PROFESSIONAL SUMMARY

A results-driven Frontend Developer with over 3.8 years of specialized experience in architecting and developing complex back-office systems for the banking and fintech industries. Highly proficient in React.js and dedicated to creating secure, scalable, and user-friendly web applications.

WORK EXPERIENCE

SIGMATECH

02/2026 – 04/2026

Frontend Developer

Jakarta, Indonesia

- **Sole Developer** responsible for the end-to-end delivery of the "**Mantap Onboarding Merchant**" (**Bank Mandiri Taspen**) platform, from initial architectural design to production.
- Engineered the **React.js/Vite** frontend and developed **Node.js** backend services to handle secure merchant registration and REST API integrations.
- Designed scalable, reusable UI components and collaborated within a structured **Waterfall** lifecycle to ensure successful deployment.

PT. Infosys Solusi Terpadu

04/2022 – 09/2025

Frontend Developer

Jakarta, Indonesia

- **Spearheaded the refactoring** of the BSI Byond codebase to develop the new **BSI XPAN** platform and contributed to the development of the **HIBANK Superapp** back-office, delivering a total of 15+ core administrative modules from scratch.
- **Engineered robust Role-Based Access Control (RBAC)**, dynamic content parameter systems, and complex multi-level approval workflows for banking operations across all assigned projects.
- **Improved application stability by 30%** and significantly reduced user complaint tickets by identifying and resolving over 500+ technical bugs across the **BSI Byond**, **BSI XPAN**, and **HIBANK** platforms.
- **Optimized component rendering performance**, resulting in a **15% reduction in page load times** and achieving **20% faster feature releases** through effective Agile team collaboration.

EDUCATION

Glints Academy

10/2021 – 01/2022

React Native Engineer & Developer Trainee (Bootcamp)

Jakarta, Indonesia

Bina Nusantara University
Undergraduate Studies in Computer Science (Completed 65% of credits/SKS)
Decided to pursue a professional career in Software Development.

09/2015 – 07/2021
Jakarta, Indonesia

SMK Bakti Idhata
Computer and Networking Techniques

2012 – 2015
Jakarta, Indonesia

SKILLS

Frontend

React JS, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Ant Design.

State & Testing

Redux (Saga/Thunk), Jest, React Testing Library, Vitest.

Mobile & Backend

React Native, Node.js, PHP, SQL, REST API.

Tools

Vite, Git, GitHub, GitLab, Jira, Asana, Agile/Waterfall.

LANGUAGE

Indonesian

Native or Bilingual

English

Fluent

CERTIFICATIONS

- Frontend Developer (React) (Hackerrank) (2025)
- Javascript tingkat Basic dan Intermediate (Hackerrank) (2023)
- Cross-platform Hybrid Mobile Application (React Native) Engineering & Development (Glints Academy) (2022)
- Freecodecamp JavaScript Algorithms and Data Structures (2022)

PROJECTS

SUNNAHGUIDE (PanduanMuslim)

03/2026 – 03/2026

Solo Frontend Developer

Live Demo : <https://fhasans.github.io/PanduanMuslim/> 

Github Repository : <https://github.com/fhasans/PanduanMuslim> 

- Architected and developed a comprehensive, mobile-friendly Islamic worship guide as a Progressive Web App (PWA), allowing seamless desktop and smartphone installation without requiring user authentication.
- Integrated the quran.id Public API to provide a digital Al-Qur'an and implemented an auto-sync daily prayer schedule with manual location discovery.
- Built interactive UI components including a comprehensive guide for various prayers, daily supplications, and a functional Dhikr counter for post-prayer recitations.
- Utilized React.js and Tailwind CSS to create a responsive interface with a Dark Mode toggle, supported by Supabase as a Backend-as-a-Service (BaaS) for reliable data management.
